## Amendment to the Claims:

- 1. (Previously Presented) A self-sealing barrier aerosol vessel containing multiple doses of a wound gel for the treatment of wounds.
  - 2. (Original) A vessel as claimed in claim 1 wherein the get comprises a hydrocolloid.
- 3. (Previously Presented) A vessel as claimed in claim 1 wherein the gel comprises a natural gelling agent.
- 4. (Previously Presented) A vessel as claimed in claim 1 wherein the gel comprises a glycol.
  - 5. (Previously Presented) A vessel as claimed in claim 1 wherein the gel comprises:
    - (a) from about 0.05% to 10% by weight of a natural gelling agent;
    - (b) from about 1.0% to 10% by weight of a hydrocolloid;
    - (c) from about 5.0% to 30.0% by weight of an alkylene glycol; and
    - (d) at least 50% by weight of water.
  - 6. (Previously Presented) A vessel as claimed in claim 1 wherein the gel is sterile.
  - 7. (Cancelled)
- 8. (Currently Amended) A method of making a self-sealing barrier aerosol vessel comprising multiple doses of a wound gel, the method comprising the steps of:
- (i) filling an inner container with gel, said inner container being contained within an outer casing container;
  - (ii) sealing the inner container with an opening valve; and
- (iii) introducing a pressure medium between the inner container and the outer casing container.
- 9. (Currently Amended) A method of making a self-sealing barrier aerosol vessel comprising <u>multiple doses of a</u> wound gel, the method comprising the steps of:
- (i) filling an inner container with non-sterile gel, said inner container being contained within an outer casing container;
